learnsmart an adaptive study tool proven to strengthen memory recall increase class retention and boost grades by identifying your strengths and weaknesses you can ensure that every minute you spend studying has the highest possible impact with users experiencing an average of a letter grade improvement adaptive learning is a proven way to increase your success and confidence craig deegan s financial accounting 8e continues to be the market leading and most highly regarded product for the changing needs of today s instructors and students this edition has been redesigned to make the content more concise accessible and easy to use for students as well as prepare them for a future career in financial accounting new to this edition real world examples more applied and practical examples that focus on the how to of financial accounting currency comprehensive and up to date coverage of areas such as financial statement presentation the conceptual framework for financial reporting accounting for leases revenue recognition financial instruments and corporate social responsibility reporting

the management and balancing of social environmental and economic sustainability is one of the most complex and urgent challenges facing both private and public sector organizations today with these challenges of sustainability posing many risks to and many opportunities for advancing the aims and performance of organizations accounting and accountability processes and practices provide key tools to help organizations to more effectively identify and manage the risks and opportunities of sustainability popular features from the first edition are retained whilst recent developments in theory and practice are accounted for new substantive chapters on water resource accounting carbon accounting and decision making have been introduced and the book continues to benefit from a host of expert contributors from around the world including jesse dillard rob gray craig deegan this comprehensive and authoritative textbook will continue to be a key resource for students of accounting and sustainability as well as being a vital tool for researchers

an annual prize is awarded for the best paper appearing in accounting education an international journal and this book contains the prize winning papers for every year from 1992 to 2012 the journal s primary mission since the first issue was published in march 1992 has been to enhance the educational base of accounting practice and all the papers

in this book relate to that mission these papers reporting on research studies undertaken by accounting education scholars from around the world build on research findings from the broader domain of education scholarship and embrace a wide array of topics including curriculum development pedagogic innovation improving the quality of learning and assessing learning outcomes of particular interest are three themes each of which runs through several of the papers students approaches to learning and learning style preferences ethics and moral intensity and innovation within the accounting curriculum accounting educators will find many ideas in the book to help them in enriching their work and accounting education researchers will be able to identify many points of departure for extending the studies on which the papers report whether comparatively or longitudinally this book is a compilation of papers originally published in accounting education an international journal

this exciting book is one of the first textbooks in the fast growing area of sustainability accounting contributed to and edited by an impressive array of internationally renowned authorities it focuses on the use of sustainability accounting both as an external accountability mechanism external reporting and as a tool for helping managers assess and manage the social and environmental impacts of their operations management accounting using real life examples and case studies to emphasize the links between the conceptual basis and issues in practice this outstanding book addresses the growing interest among both practitioners and academics in social environmental and ethical accountability as interpreted through the lens of sustainable development

this book explores recent developments in the theory strategic perspective and international practice of corporate social responsibility in particular it discusses the consequences of the economic slowdown apparent in many economies and the impact of changes in the regulatory environment it consists of three parts part one addresses a variety of theoretical approaches as well as the dynamics and criticism of corporate social responsibility it takes into account social and governmental expectations for the new and extended role of companies in the economy and in society and provides a new context and theoretical assumptions regarding the functions and tasks of corporate social responsibility part two discusses the practical aspects relating to strategic management

and corporate governance corporate disclosure and reporting as well as the empowerment of stakeholders lastly part three focuses on the international practice of corporate social responsibility in various organizational and institutional settings using numerous case studies the book explores the challenges and tasks of csr in emerging markets in the fashion industry and in global and family companies it identifies the changes that can be detected following the financial crisis closing the loop and linking the empirical findings with the revised theoretical framework

given the increased social and environmental problems in china this book looks into the social and environmental disclosure practices of socially responsible chinese listed firms by constructing a stakeholder driven three dimensional disclosure index the book contains a three part study the first part explores the current status of social and environment disclosure practices the second part empirically examines the relationship between corporate social and environmental disclosure and various influencing factors i e stakeholders power and corporate characteristics the third part empirically examines the link between corporate social responsibility csr reporting i e publishing a csr report and the quality of the csr report and socially responsible reputation the book finds that the csr report provided more stakeholder relevant social and environmental disclosure than the annual report it also finds that corporate characteristics such as firm size profitability and industry classification are all statistically significant factors influencing the social and environmental disclosure of the chinese firms studied shareholders significantly influenced firms social and environmental disclosure and creditors significantly influenced firms disclosure related to their environmental performance the final part of the study reports that publishing a csr report and csr reporting quality had a positive influence on firms socially responsible reputations and that the ceo chairman duality negatively influenced firms socially responsible reputation this book will be of interest to those who are keen to learn more about corporate social responsibilities in the context of chinese firms

using the lens of stakeholder theory this book examines whether the current practice of corporate social responsibility reporting in developing countries is motivated by a desire to discharge accountability to all relevant stakeholders or whether it is being driven by

the imperative of advancing corporate economic interests
